“ I am writing to thank you for the exemplary care and kindness that my mother always received at St. John's. Particularly as she got feeble and at times confused, it could have been a great worry to us having her dependant on other people for her happiness and welfare. As it was, we were able to have complete confidence in the staff and management of St. John's, and knew that she was being as well looked after as she could have been anywhere. I did want to express our deep appreciation of everything the home has done. With affectionate good wishes to all. ” 14/08/2009
